

16g A&D ejector by Mortimer & Son – 27 x 2 1/2? barrels

Description

This Mortimer 16g was built circa 1920. It has 27? x 2 1/2? steel barrels with a raised, cross-filed, quick sighting Churchill rib. The barrel tubes read “Mortimer & Son, 86 George Street, Edinburgh” and the gun is fitted with a full spindle lever system, a rocker safe action, an Anson fore-end with Southgate ejectors. A full overhaul has been recently carried out and the gun retains traces of hardening colour. Barrel black is original and the woodwork of the 14 3/8? stock is in good, un-restored condition, with panels and drop points. Border engraving on the action is complemented with two panels of game scene, a pigeon in landscape on the right-hand side and a pheasant in landscape on the left. A clean honest little gun.

WEIGHT:		5lbs 15oz					
CONDITION:		Perfect barrel condition. Traces of original colour hardening.
