

8g Hammer Gun by Stephen Grant – 34 1/4 x 3 1/4? Barrels

Description

This Stephen Grant 8g was delivered in 1881. The action and locks are border engraved, there is a bloom of colour left on the gun and the 34 1/4? barrels are particularly fine Damascus and in excellent condition with only a few minor pit marks. It's fitted with rebounding back action locks and unusually an Anson push button fore-end. The 14 1/8? stock has better figuring than most normal wild fowling guns, so all in all, it really is built to a very high standard. The gun is in good original condition.

WEIGHT:		12 1/2lbs					
CONDITION:		A few minor pit marks, a bloom of colour hardening.
