

12g A&D ejector by Henry Atkin – 26 x 2 1/2? sleeved barrels

## Description

This is a very well made Henry Atkin built around 1910. It has 26 x 2 1/2? sleeved barrels, a full spindle lever system, a rocker safe, Deeley ejectors and intercepting sears. The action is fitted with a third locking grip and the strikers are disc set. The gun is fully crossover with a 14 5/8? stock and it fits me perfectly. Having not shot overly well this year, perhaps I should try it next season!

WEIGHT:		6lbs 5oz					
CONDITION:		Perfect barrel condition.
