

12g back action sidelock ejector by Army & Navy 28 x 2 1/2" barrels

Description

This Army & Navy was probably built circa 1910 and has had a tremendous amount of work done to it over its life. It has had a new 14 3/4" stock and fore-end at some point along with a new pair of 28" x 2 1/2" steel barrels. It's a back action sidelock with Southgate ejectors. With the barrels being lightly choked and over 30 thou, this gun will fire standard steel. A clean honest gun at the price of an AYA.

WEIGHT:		6lbs 14oz					
CONDITION:		Perfect barrel condition.
