

SOLD – 12g hammergun by Boss & Co – 28? x 2 1/2? barrels

Description

SOLD – This beautiful hammergun by Boss was built in 1875, and has 28? x 2 1/2? shortened Damascus barrels which are clean with excellent wall thicknesses. Additionally, there is a pair of steel barrels with 2 3/4? chambers built by “John Wilkes of London”, which were re-proved to 2 3/4? in London in 1996 and are choked 3/4 and Full. Engraving style on the action locks, hammers, etc, is Boss’ delicate scrollwork and the Damascus barrel breech end is engraved No 1 as is the trigger guard. The back locks are rebounding with dolphin head hammers, and the gun has the Jones’ underlever locking system. Retains a small amount of original hardening colour, this gun has a 14 3/8? stock, which includes a 1/4? extension piece. This is a clean gun which shows little sign of wear. With the chokes reduced, the steel barrels will be capable of firing standard steel cartridges.
