

SOLD – 12g A&D non-ejector by J Burrow – 34" x 3" barrels

Description

SOLD – This magnificent gun is built by J Burrow of Preston, and it's most unusual. Steel barrels measure 34" x 3", are bored at 11/1 and choked full and full. Being nitro-proved, it will take 1 1/2oz of shot and is chambered for 12g. Engraving style on the action is a scroll and beaded borders, and the 15 1/4" pistol grip stock has panels and drop points and a leather covered pad. Incorporating a full spindle lever system and a rocker safety, this gun is presented in its canvas and oak brass-bound case. If clay bashing with an side by side is your thing, then this could very well be your new gun.
