

12g sidelock ejector by Holland & Holland – 30" x 2 3/4" barrels

Description

****Attention left-handed shooters!**** This magnificent Holland & Holland Royal was built circa 1906 and is number 1 of a pair. Restored approximately 25 years ago, the gun has a new left-handed 15 3/8" beautifully-figured stock with a fore-end to match. 15 years ago, the owner had a new pair of chopperlump barrels made by Holland & Holland, measuring 30" with 2 3/4" chambers, which remain in perfect condition. The barrels have a concealed third grip which also acts as an extractor guide and the action and locks are engraved with Holland's bold acanthus pierced strapwork, with the underside reading "Royal Hammerless Ejector". In fabulous condition throughout, this gun has been meticulously looked after and has had a strip and clean at the end of every second season. Presented in a lightweight motor case with trade label, accessories and outer canvas cover. What an impressive gun!
