

20g Sidelock Ejector by Victor Sarasqueta – 26 x 2 3/4? barrels

Description

This 20g Sarasqueta has had very little use and retains the majority of its hardening colour. It has 26? x 2 3/4? chopper lump barrels and engraving on the action and looks a bold acanthus scroll. It has a 14 3/8? straight-hand stock, very slightly cast for left, which I'm happy to cast back if required. A good reliable little gun which has just been overhauled. This gun will be capable of firing standard steel with chokes reduced.
