

20g top lever hammergun by James Purdey & Sons – 30 x 2 3/4 sleeved barrels

Description

This is a beautiful little 20g top lever hammergun by this very famous London maker. Built circa 1885, the gun has sleeved barrels measuring 30 x 2 3/4 and an inset push-rod fore-end. Engraving style on the back action locks, hammers and action body to the scroll and the locks are signed “J Purdey & Sons”. The woodwork has been re-chequered, finished and extended, in wood, to 14 5/8 to centre, having clearly been previously cut down for a young shooter. Amazingly, with 30 barrels, this gun is beautifully balanced and weighs only 5lbs 5oz. A rare little gun.
