

300 Win Mag by Ruger

Description

SOLD – This is a 300 Win mag rifle, fitted with quick release mounts which are engraved with gold inlay. The forward ring grips the objective lens of the variable Leupold scope. Engraving style on the foresight is bold acanthus scroll which is also deeply engraved on the action including a hunter gatherer and his prey inlaid in gold. Elongated top tang on the action holds a push forward safe. The beautifully figured stock has metal pistol cap with horn, a cheek piece for the right shoulder and the fore-end wood has a buffalo horn tip. Looks to me like the work has been carried out in Ferlach, Austria. A super rifle, clean and bright in the face, accompanied by a target showing the tight grouping.
