

12g A&D ejector by John Wilkes & Sons – 28 x 2 1/2? barrels

Description

This is a best grade John Wilkes box lock with 28? x 2 1/2? barrels which has been fully restored, overhauled, woodwork re-chequered and oiled. It's in outstanding condition with a 14 5/8? stock. The scroll backed action is engraved with fine rose and scroll and argusted "John Wilkes & Sons", and has the 79 Beak Street, London Address on the top rib. The Tolker blades are chequered, the gun has a full spindle lever system, an Anson fore-end with the series on the woodwork and Southgate ejectors. The gun comes in a oak & leather Wilker base with trade label and named oil bottle. I think as box locks go, it's about as good as locks in the last 5 years.

WEIGHT: 6lbs 5oz

CONDITION: One small mark in right tube.
